COVID 19 and Safety Policy

We want all parents to be assured that we are following the current government guidelines on Covid 19 and remain diligent on the procedures we put in place. These include social distancing where possible; all equipment will be cleaned before and after every session. HD Multi Sports has its own safety policy that ensures all children are kept safe and happy whilst in the care of any HD Multi Sports staff members. All members of staff are DBS checked and there will be always a trained pediatric first aider at the camp.
